

PAB6124 - 4 Channel Power Amplifier

This high quality four channel power amplifier has been specifically designed for use with systems requiring zoning facilities. It features multiple speaker outputs with 70 and 100 volt options. It also has the option to run on both AC and DC power supplies. A very effective, cost worthy and practical solution for many applications.

Main Voltage:	AC230/240V 50/60Hz
Battery Voltage:	DC24V (max 10% deviation)
Output Power:	4 x 120W
Outputs:	Speaker outputs, 8ohm, 70V/10
Inputs:	Line input 1V, 47ohm, Symmetrisch, unsymmetrisch
Frequency Response:	50Hz ~ 20KHz +/- 3dB
Total Harmonic Distortion:	Less than 1% at 1KHz rated power
Indicators:	Power indicator (LED), output level indicators (LEDS)
AC Power Consumption:	1100 watts
DC Power Consumption:	32A
Dimensions:	133H x 483W x 380mm D
Weight:	25.5kg
Colour:	Black
